OVERVIEW

The Review Management section of inteGREAT4TFS is the module that is mainly used to manage the reviews regarding Work Items of a Team Project. Users can ask other users for reviews and also provide reviews assigned to them. This guide demonstrates how to use the Review Management module in inteGREAT4TFS.

KEY TAKEAWAYS

Individuals Users will learn how to perform the following tasks from this tutorial:

- Invoke the module
- Create a new Review Request
- Respond to an assigned request
The Review Management User Interface can be divided into three panels as shown below:

- Review List Panel
- Work Item Grid
- The Response Panel

### Review List Panel
This panel is used to:
- View the list of review requests generated by/assigned to the user.
- Generate new review requests

### Work Item Grid
This section shows the Work Items in the currently selected review request. Users need to select a Work Item in order to view the response.

### Response Panel
This section is used to view/provide responses.
REVIEW LIST PANEL

| 1  | New          | Used to create a new Review Request |
| 2  | Refresh      | Refreshes the Review Request list  |
| 3  | My Requested Reviews | Shows a list of the Review Requests created by the current user |
| 4  | Reviews Assigned To Me | Shows a list of the Review Requests assigned to the current user |

LEGENDS

- REVIEW REQUEST IN PROGRESS
- COMPLETED REVIEW REQUEST
WORK ITEM GRID

<table>
<thead>
<tr>
<th>ID</th>
<th>Title</th>
<th>Progress</th>
<th>Rev. ID</th>
</tr>
</thead>
<tbody>
<tr>
<td>6106</td>
<td>System shall have a User Registration Module</td>
<td>0/1</td>
<td>2</td>
</tr>
<tr>
<td>6107</td>
<td>System shall allow registered users to log into the system for shopping</td>
<td>0/1</td>
<td>3</td>
</tr>
<tr>
<td>6109</td>
<td>System shall allow customers to go to checkout with their selected products for purchase</td>
<td>0/1</td>
<td>6</td>
</tr>
</tbody>
</table>

**Open in Web Access**
Opens the selected Work Item in a separate window. Both the Hyperlink Work Item ID and the lead to the same window.

**Review Request's Name**
The title of the Review Request

**Review Tab**
Used to view/provide review

**Details Tab**
Used to show the metadata about the review request such as Creation Date, Created by, Due Date etc.

**Work Item List**
Shows a list of the Work Items of the selected Review Request
### RESPONSE PANEL

1. **Response Toolbar**
   - Contains options to accept / reject / post comment

2. **Comments Box**
   - Used to give response against the selected Work Item

3. **Comments Tab**
   - Selecting this tab shows a list of responses given against the selected Work Item

4. **Details Tab**
   - Selecting this tab shows the details of the selected Work Item

### RESPONSE TOOLBAR

<tr>
<td><img src="image" alt="Reject" /></td>
<td>Rejects the Work Item</td>
</tr>
<tr>
<td><img src="image" alt="Reject All" /></td>
<td>Rejects all Work Items in the Request</td>
</tr>
<tr>
<td><img src="image" alt="Add Comment" /></td>
<td>Posts the comment added in the Comments Box</td>
</tr>
</tbody>
</table>
**INVOKING THE MODULE**

In case another module is selected, the user can invoke the Review Management function by clicking on the Review Management option (below the Team Project Name).

The landing page of Review Management is displayed.
CREATING A REVIEW REQUEST

1. Click the **New** option.

2. Click the **Review Request** option from the drop-down menu.
3. Select the desired ‘reviewers’ from the drop-down list.

4. Similarly, select the desired ‘approvers’.

Note: Reviewers only provide comments while Approvers can only approve/reject.
5. Enter appropriate subject for the review request.

6. Scroll down to get to the other steps in the window.
7. Provide a purpose for the review (optional). Alternatively, collapse the section by clicking on the down arrow on the far right.

8. Click the **Add Work Items** button.
9. Run the relevant query.

10. Select the desired Work Items (for which the review is desired) and click the Add Work Item(s) button.
11. Set the **Due Date**.

![Screenshot of setting due date](image)

12. To preview the request, click the **Preview** button.

![Screenshot of preview button](image)
The Preview is displayed.

Note: In the preview, only the text box area is editable. All other information such as recipients is shown in read-only format. If these need to be edited, the user has to go back and alter the relevant options.

13. Make formatting updates (optional) and click the **Send** button.
The Review Request is created and becomes visible at the module's landing page.

**RESPONDING TO A REVIEW REQUEST**

- The Review Requests assigned to a user are arranged under **Assigned to Me** heading in the Review List panel.

- The process to respond to the review requests is slightly different for Reviewers and for Approvers.
1. Click the relevant Review Request under the **Assigned To Me** heading in the Review List panel.

2. Select the Work Item for which the review is to be given.
3. Provide a comment (optional).

4. Click Add Comment button.
The response for the selected Work Item is completed.

5. Repeat the process with all other Work Items of the Review Request.
FOR APPROVERS

- Providing a comment is not mandatory for approvers, however it is mandatory for stakeholders.
- For approvers there is an extra step to accept or reject the Work Item from the Review Request.

- If **Accept All** or **Reject All** option is selected, instead of simply selecting the Accept/Reject option, then the response is finalized for all Work Items of the Review Request and the user does not have to repeat the whole process for each Work Item as mentioned in **Step 5**.
